

Lifeline

Residential Retreat

1997 Website Program Description

A program for [Gateway Voyage](#) and [Guidelines](#) graduates only, whereby you can learn to assist and communicate with those no longer in Time-Space physical existence.

Most of the **Lifeline** activity is beyond Focus 21 ...in Focus 23, 25, and 27 which Bob Monroe defines as those just apart from the here now, or time space ... the states of being we encounter immediately after we end this life sojourn. Hopefully you will get to know you survive physical death as a result of such meetings with old-new friends. The theme of this program is service to others, those who are here as human beings and those who are no longer in physical reality. Also included is further training in dolphin energy healing.

If you have any questions regarding the **Lifeline** Program,
please do not hesitate to contact the Institute.

We will be happy to hear from you.
